PROFILE SUMMARY

I'm a Full Stack Developer and NLP enthusiast counting 10+ years of experience in the tech industry. My main technical skills are focused towards building secure and robust application back-ends with Spring and SQL databases, and intuitive modern web GUIs with React.

CORE SKILLS

- Web APIs development with **Java** and **Spring**
- Web UI development with **React** and **SCSS**
- Data persistence with **SQL** and **Hibernate**
- Deployment with **Docker** and **Google Cloud Platform**
